

How to Create a More Profitable Warehouse

Improve Order Picking

Increase efficiency - lower costs

50% of a DC's labor is spent picking and packing! We'll show you how to reduce this cost.

- Eliminate paper-based order release
- Pick multiple orders at the same time
- Implement cartonization pick to carton logic
- Reduce secondary touches

Gain a 35-50% Productivity Boost with Multimodal Picking

◇ Voice with Hands Free Barcode Scanning - Benefits:

- Easy to learn - no voice training
- Reduces labor by 35 to 50%
- Single touch pick and pack process
- Validate picking in a single task
- Increase accuracy to 99.99%

The true cost of Errors

- ◇ Do you have weekly customer shipping order accuracy complaints?
- ◇ Errors kill customer experience and retention.
- ◇ A single error can cost **\$250** or more! Three per week amounts to **\$40,000** per year.

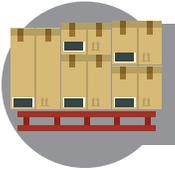

Move to Smart Batch Picking Software

- ◇ RDS™ optimizes batch picking and processes 12 or more orders using the **shortest travel path**

BENEFIT

- **2X productivity gain** over a discrete picking process

Costly Problems in Pack-and-Ship

- ◇ Are you missing order **shipping deadlines**?
- ◇ Are operators performing repetitive manual packing tasks?
- ◇ Running low on **floor space**?
- ◇ Too reliant on **temp workers**?
- ◇ Unable to handle daily peak or seasonal order volume surges?

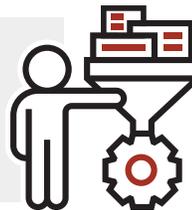

Automate the DC's Last 100' to Streamline Pack-and-Ship

- ◇ In-line Scan-Weigh-Dim and Print and Apply Labeling automates manifesting while eliminating manual packing labor

BENEFITS

- Single operator does the work of **5+ people**
- Eliminate **bottlenecks** in pack-and-ship

Numina Group streamlines and automates entire order fulfillment operations deploying the latest warehouse automation technologies.

- ◇ A united and automated order fulfillment operation results in a low labor **100% to 200% productivity boost.**
- ◇ Achieve **99.99% accuracy** while generating a rapid ROI
