RDS™ WES-WCS Orchestrates Pick, Pack, and Ship Automation Across the Entire Warehouse

RDS drives people and AMRs simultaneously

Pack and ship automation simplified

Design and Implement Automated Solutions

- **Reduce touches and labor**
- **Increase throughput**
- **Unify pick, pack, and ship**
- **Accelerate order fulfillment**

RDS™ Real-time Distribution Software is our modular and scalable Tier 1 Warehouse Execution and Control System (WES-WCS). RDS includes a complete family of software automation modules to control and manage technologies that streamline pick, pack, and ship order fulfillment.

RDS software solutions have increased productivity and accuracy in thousands of demanding manufacturing and distribution operations. RDS has all the tools required to accelerate distribution performance at new and existing warehouse operations.

Software

RDS Integrates with any ERP/WMS System

RDS™ Automated Warehouse Systems Family of Software Modules

- Order Release Optimization
- Victory Voice
- Pick to Light
- ASRS & Mini Loads
- Scan-Weigh-Dimensioning (SWD)
- Print and Apply Labeling
- Sorter Control & Management
- GTP Automation

- Cartonization Software
- AMR Robotic Picking
- Put Wall and Sorter Order Consolidation
- Labor Tracking and Reporting
- Print-Fold-Insert (PFI)
- Conveyor Controls and High-Speed Sortation
- Cloud Integration Ready
- Robotics

Define & Design Engineering Services:

- Facility selection and sizing
- Value stream mapping
- Process improvement design services
- SKU slotting and profiling based on dimensional velocity
- Racking system design
- Automation, technology, and software selection
- Material handling system design
- Conveyor and sorting system integration
- Turnkey distribution center implementation & automation

Numina Group is a leading independent material handling and warehouse automation integrator with more than three decades of industry expertise delivering solutions tailored to our customer's requirements.
